Mr. Coffey says that he just cannot sign a letter going to The Secretary of Labor -- letters to that level should be signed by the Director and it is not necessary that the Director sign this type of letter.

Therefore, he suggests that the letter be addressed to: Federal Safety Council  
Department of Labor  
etc.

Is there any reason why it can't be?

The attached quarterly report of injuries shows the number of disabling injuries (injuries resulting in one or more days of work lost after the day of injury) per million man-hour work.

As a possible indication of the trend, the frequency rate last quarter was 3.4.
